

Genomic tracks for genes FHIT, PTPRG, C3orf14, FEZF2, and CADPS. Below each gene name is a p-value: 2.8×10^{-6} , 1.5×10^{-1} , 1.2×10^{-1} , 3.5×10^{-3} , and 5.3×10^{-1} respectively. Green horizontal bars are positioned below the p-values.
